

## Jeffries Technology Solutions Welcomes Hugh Arsenault

**August 3, 2011**

**Herndon, Virginia**– Jeffries Technology Solutions, Inc. (JeTSI) is pleased to announce the addition of Mr. Hugh Arsenault to the JeTSI team as an Aerospace Senior Systems Engineer.

Mr. Arsenault brings a unique skill set of engineering and business acumen combining strong Systems Architecture and Engineering expertise with an understanding of program management, strategic planning, and budgeting. His ability to lead a project's technical requirements, analysis, and assessments is enhanced by his knowledge of budget and program processes. He holds Level III Government Acquisition and Program Management Certificates in Program Management; Research, Development & Technology; and Systems Engineering.

Among his many achievements, Mr. Arsenault provided Systems Engineering and Integration Support (SEIT) for a series of major enhancements to NASA's Ground and Space Communications capabilities, and Systems Integrator (SI) Leadership to a multi-organizational team responsible for providing recommendations and assessments of critical National Program Mission Rehearsals and Readiness Events.

As an officer in the United States Air Force, Mr. Arsenault developed critical budgetary and programmatic products for Congressional decision makers, conducted ground control system capabilities upgrade studies using DoD system engineering management tools and transformational processes, and managed system engineering and integration processes for a major ground control software system upgrade.

JeTSI President, Alan Jeffries, is pleased to add Mr. Arsenault to the JeTSI team noting that "with 28 years of experience working with DOD and NASA, receiving multiple awards for service, commendation, and achievement, a degree in Mechanical Engineering, and a Masters in Aerospace Engineering, Mr. Arsenault will be a true asset to JeTSI and our clients."

JeTSI is a woman-owned engineering consulting firm specializing in the aerospace industry. It provides diverse services in systems engineering and architecture, program management, software development, and custom hardware solutions.
